

Technical specifications of some models of Brice-Baker grain dryers

Index description	Grain dryer models					
	Brice-Baker SCN-4/48	Brice-Baker SCN-14/24	Brice-Baker SCN-9/48	Brice-Baker SCN-16/48	Brice-Baker SCN-16/72	Brice-Baker SCN-21/96
Productive capacity at the humidity reduction from 20% to 15%, not less than, t/h*	27	49	62	112	156	292
Gas consumption (not above), m ³ /h	180	326	413	745	1 037	1 942
Electric power consumption per 1 hour (not above), kW	50	65	275	162	275	463
Overall dimensions (not above), mm						
length	5 720	7 600	7 610	7 610	7 610	7 610
width	4 980	2 800	4 980	5 240	7 550	9 780
height	7 800	19 100	13 100	21 100	21 100	26 100

Please, itemize the complete model range's specifications from company's specialists

Note:

* At drying of wheat with bulk density of 750–760 kg/m³;

drying agent temperature of no more, than 125 °C;

ambient temperature of 20 °C;

humidity of 70%.
