

PROFESSIONAL ASSEMBLY OF GRAIN STORAGE EQUIPMENT

Assembly supervision | Inspection | Commissioning | Service

A photograph of an industrial construction site under a clear blue sky. In the foreground, a yellow crane is positioned next to a large, cylindrical metal structure. To the left, a tall, complex metal framework is being assembled. In the background, another large industrial structure is visible, partially covered in scaffolding. The overall scene depicts a large-scale industrial project in progress.

ARE YOU READY TO BEAR THE RISKS OF ASSEMBLY YOUR EQUIPMENT BY NON-PROFESSIONAL BRIGADES?

- Lack of a detailed plan and a 3D model of the project.
- Unreasonable changes to the selected equipment during the active phase of the design process.
- Inadequate planning, incorrect forecasting, and a lack of understanding of the project's actual timeline.
- Focusing solely on the cost of work when choosing an assembly team.
- Inadequate supervision at all construction stages.
- Absence of geodetic surveys.
- Improper long-term storage of equipment prior to assembly.

CORRECT ASSEMBLY –
GUARANTEE OF QUALITY AND
PROBLEM-FREE OPERATION OF
THE EQUIPMENT.

www.kmzindustries.ua

QUALITY ASSEMBLY IS THE ASSEMBLY DONE BY THE EQUIPMENT MANUFACTURER

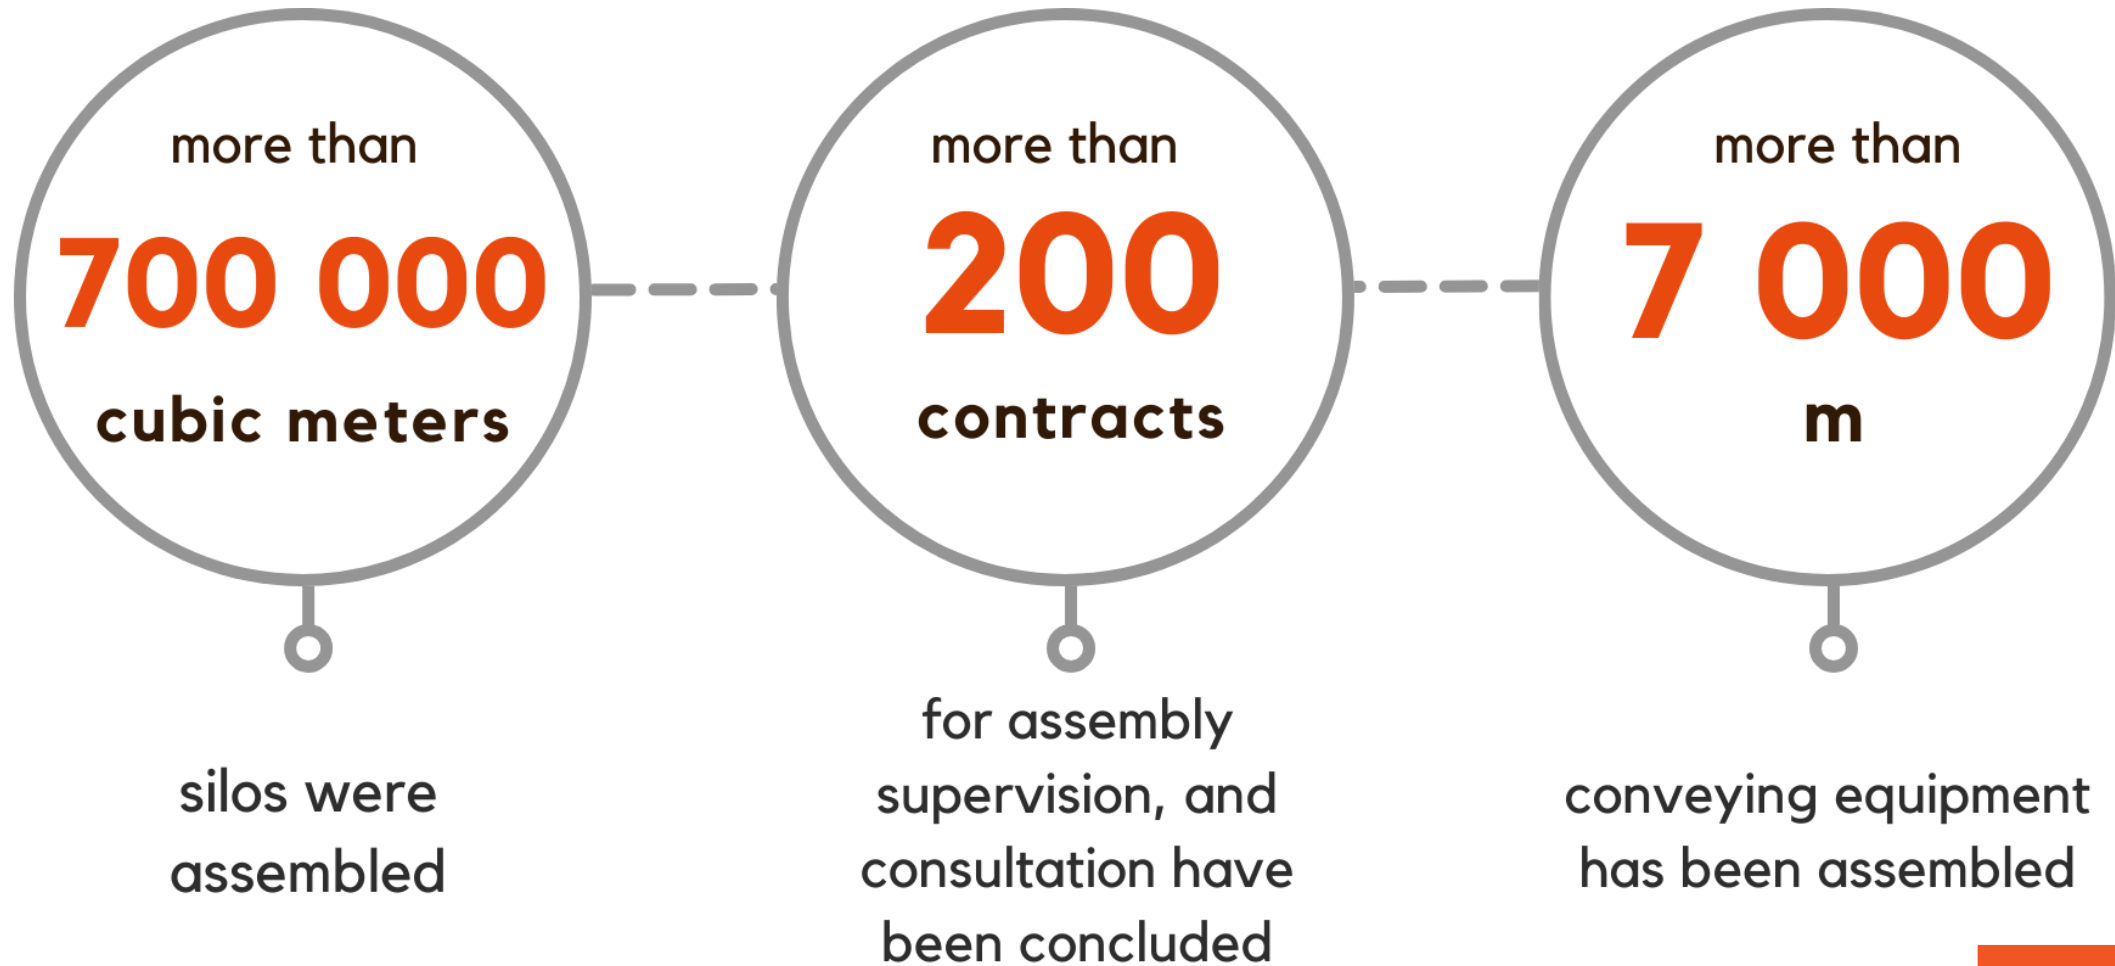

- Minimum assembly crew – because the manufacturer knows how to properly and quickly assemble their own equipment.
- Has its own professional assembly crews.
- Assemblers have all the necessary permits and permits.
- Assembly crews are provided with the necessary professional equipment and tools.

WHAT IS PROFESSIONAL ASSEMBLY FROM KMZ INDUSTRIES?

- Highly qualified installers.
- Required engineering and technical staff: chief project engineer, design engineer, estimator, civil engineer, economist, storekeeper, chief mechanic, occupational safety engineer.
- Professional tools (Hilti, Würth, MILWAUKEE).
- Our own equipment (chain hoists Haklift, Finland).
- Proper work attire and personal protective equipment.
- Execution of work in strict accordance with the production work project and labor protection regulations.

EXECUTIVE DOCUMENTATION – FINAL STAGE OF ANY ASSEMBLY

- Certificate of concealed works.
- Certificate of intermediate acceptance of responsible constructions.
- Certificate of acceptance of assembled equipment.
- Work logs.
- Executive diagrams and other documents required for the acceptance of the facility by the state commission for operation.

ASSEMBLY BY KMZ INDUSTRIES COMES WITH A 36-MONTH WARRANTY

By ordering an assembly from KMZ Industries, you will receive an extended 36-month warranty on silos and conveying equipment.

ASSEMBLY AND ASSEMBLY SUPERVISION ARE THE SAME?

www.kmzindustries.ua

ASSEMBLY SUPERVISION – IS A CONSULTING

- Consultations on the order, correctness and technological sequence of installation works.
- Explanation of assembly drawings.
- Monitoring the progress of installation work.

Assembly supervisor:

- **doesn't** provide on-site supervision,
- **isn't** a foreman,
- **isn't** a designer.

www.kmzindustries.ua

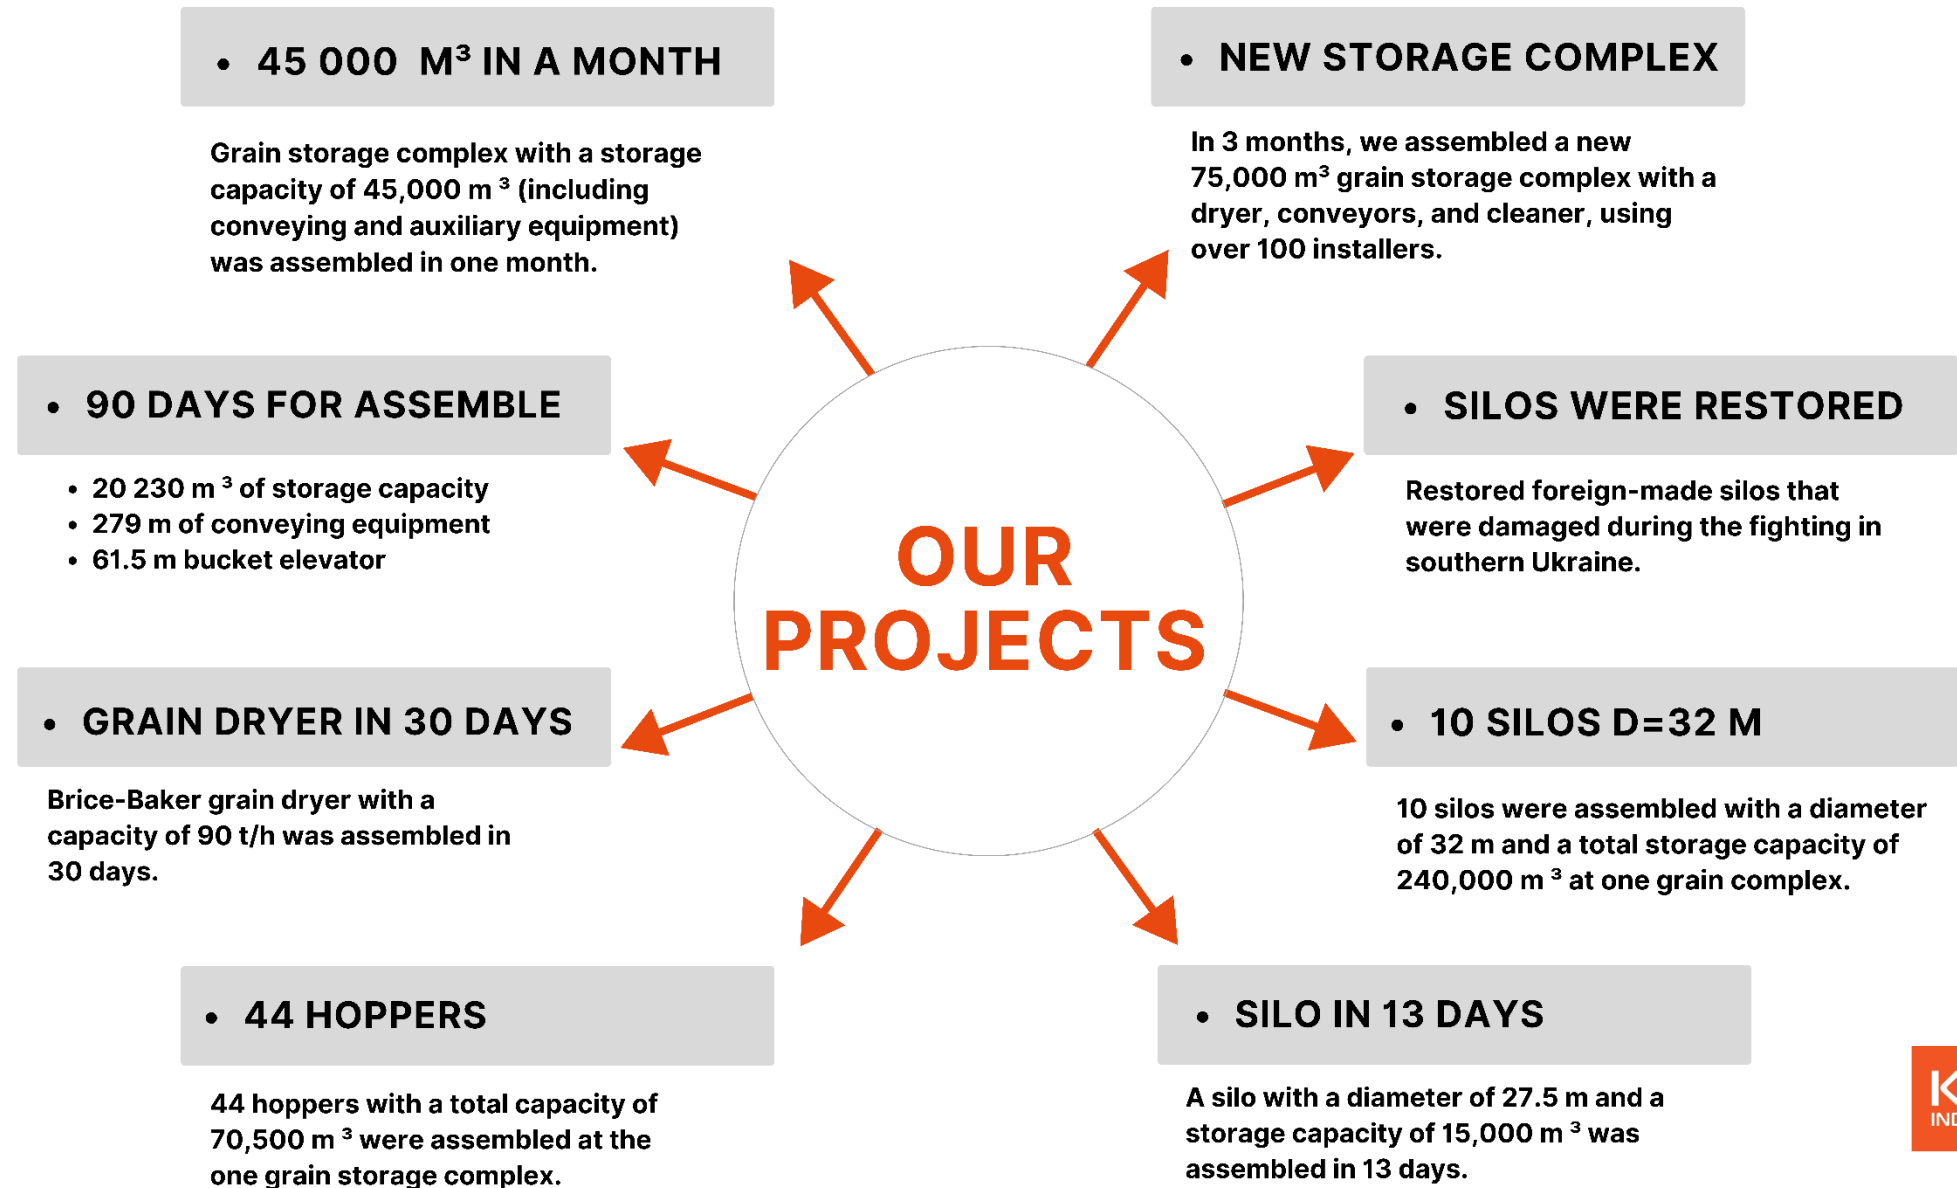

ASSEMBLY SUPERVISION GUARANTEES CALM AND CONFIDENCE FOR THE CUSTOMER

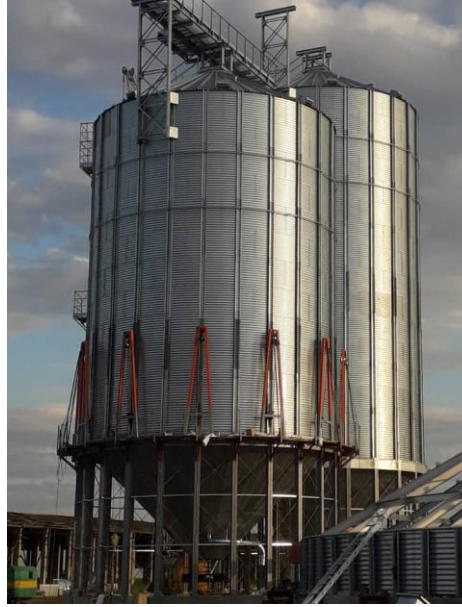

- Continuous presence of a manufacturer's representative on the construction site.
- Direct communication with the manufacturer regarding urgent issues.
- Guarantee that equipment warranty will be provided.
- Provides technical supervision and guidance on what to look for.
- Assists the customer in understanding the intricacies of assembly and other nuances.

SOME OF OUR PROJECTS

INSPECTION, COMMISSIONING, SERVICE AND MAINTENANCE

Professional inspection:

- ✓ Experienced specialists.
- ✓ Optical and laser equipment.
- ✓ Detailed reports with recommendations.

Commissioning:

- ✓ Pre-commissioning inspection.
- ✓ Adjustment of equipment.
- ✓ Conclusion on design capacity.

After Sales Services:

- ✓ Special tools.
- ✓ Mobility.
- ✓ Professionalism.

THANK YOU FOR YOUR ATTENTION!
